ABOUT ME

I am a passionate and enthusiastic Computer Science student and aspiring Full Stack Developer. I enjoy building web applications using the MERN stack (MongoDB, Express.js, React, Node.js) and have completed several hands-on projects. I am eager to learn new technologies, write clean and maintainable code, and contribute to impactful real-world applications.

EDUCATION

Bms Institute Of Technology And Management   2024-
Bachelor of Engineering (B.E.) in Computer Science and Engineering
Expected Graduation: 2028
(Currently in 2nd Semester)

SKILL

- **Languages:-**   Html5,Css3,JavaScript
- **Libraries:-**   React.js
- **Frameworks:-**   Node.js, Express.js, Bootstrap, Tailwind CSS
- **Databases:-**   MongoDB
- **Tools & Software:-** Git, GitHub, VS Code, Postman, npm, Cursor

PROJECTS

CodeHatch – E-Learning Platform   **MERN stack, Tailwind CSS, GSAP, JWT, Toastify**

- Developed a full-stack e-learning platform with secure JWT authentication, protected routes, dynamic course pages using slugs, and embedded video playback.
- Enhanced user experience with animations (GSAP, tsparticles), custom toast notifications, and a fully responsive Tailwind CSS layout.
- Resolved CORS issues, managed deployment configs, and deployed the app using Netlify (frontend) and Render (backend).

Music Tracker   **React js, Api Integration,tailwind css**

- reated a music tracking platform that fetches and displays songs, albums, and artists from a third-party API.
- Enabled users to mark favorites and maintain listening history using browser storage.
- Designed a user-friendly interface with a focus on clean UX.

Weather App   **React js, Api Integration,tailwind css**

- Developed a responsive weather app fetching real-time weather data by city or location.
- Integrated weather icons and condition mapping with a responsive, mobile-friendly layout.

WORK EXPERIENCE

Full Stack Developer Intern (Self-Led and Remote Learning Project)   **InterTech Nest-June 2025 – June 2025 (1 Month, Unpaid) Remote**

- Developed full-stack web applications using React, Node.js, and Strapi CMS.
- Built and deployed projects such as a Personal Portfolio, Chat Application, Weather App, and Grocery App.
- Implemented user authentication, API integration, and responsive UI across all projects.
- Collaborated in an agile environment with code reviews, version control (Git), and deployment workflows.
- Strengthened skills in frontend design, backend logic, and RESTful API communication.
